Review of the Directors for the Nine Months Ended March 31, 2020

The Directors are pleased to present their review, together with the unaudited financial statements of the Company, for the guarter and nine months ended March 31, 2020.

Net turnover for the quarter at PKR 13,930 million is 8% lower as compared to the same period last year (SPLY) primarily due to lower revenues in Polyester, Soda Ash and Chemicals & Agri Sciences Businesses by 18%, 1% and 11% respectively, which was partially offset by higher revenues in Pharma and Animal Health Businesses by 3% and 8% respectively. Operating result for the quarter at PKR 1,546 million is 1% higher as compared to the SPLY, due to higher operating result in Polyester and Pharma Businesses by 110% and 61% respectively.

Net turnover for the nine months period under review at PKR 43,217 million is in line with the SPLY. Net Turnover for the Soda Ash, Animal Health and Chemicals & Agri Sciences Businesses increased by 3%, 2% and 9%, respectively. This was offset due to dip in revenues of Polyester and Pharma Businesses by 4% each.

The Company's operating result for the nine months period under review at PKR 4,948 million is 42% higher than the SPLY, due to improved performances across all Businesses except the Animal Health Business. The growth in Polyester, Soda Ash, Pharma and Chemicals & Agri Sciences Businesses was recorded at 2083%, 14%, 108% and 39% respectively, whereas, the Animal Health Business recorded a decrease of 21% as compared to the SPLY.

The improved performance in Polyester Business was driven by improved unit margins, product diversification and various cost optimization initiatives, while the Soda Ash Business was positively impacted by better prices and optimisation of energy cost. The growth in Pharma Business was attributable to favourable manufacturing efficiencies and effective cost controls. Chemicals & Agri Sciences Business achieved improved results mainly due to healthy margins and acquisition of new customers. The performance of the Animal Health Business was mainly due to the impact of the downturn in the poultry sector.

Profit after Tax (PAT) for the nine-month period under review at PKR 2,759 million is 67% higher than the SPLY, mainly due to higher operating profit across all businesses except for Animal Health Business, and higher dividend income from Associate as compared to SPLY. This was partially offset by higher finance cost due to higher interest rates and significant devaluation of PKR against USD resulting in higher exchange losses as compared to the SPLY.

Earnings per share (EPS) for the nine months period under review at PKR 29.87 is 67% higher than the SPLY.

	Nine months ended Mar 2020	Nine months ended Mar 2019
Net turnover (PKR million)	43,217	43,103
Profit before taxation (PKR million)	3,845	2,325
Profit after taxation (PKR million)	2,759	1,655
Earnings per share (PKR)	29.87	17.91

Polyester Staple Fibre Business (PSF)

The period under review has been adversely impacted by global geo-political events as well as the recent on-going COVID-19 pandemic. The trade war between world's two biggest economies, USA and China dominated the first six month for the period under review. In January 2020, USA andChina signed phase one of the trade agreement, the impact of which was short-lived as pandemic hit the world in an unprecedented manner. While the oil industry was trying to cope up with the uncertainty, the stand-off between Saudi Arabia and Russia on crude oil production cuts drastically affected the petrochemical chain as crude oil prices reached an 18-year low level (USD 30.7/bbl) at March end. On an average basis, crude oil prices fell by 12.7% compared to the SPLY (USD 53.3/bbl vs USD 61.0/bbl).

PX, PTA and MEG markets witnessed declining feedstock prices, new capacity additions and build-up of inventories. Compared to the SPLY, PX price fell by 31% (USD 776/MT vs USD 1,129/MT), PTA by 30% (USD 632/MT vs USD 903/MT) and MEG by 29% (USD 544/MT vs 767/MT). This impact was partially offset by rupee devaluation. In line with the market dynamics, domestic PSF price on average fell by 4% (PKR 184/kg vs PKR 190/kg) as compared to SPLY.

Fuel prices followed an upward trajectory with an increase of 61% and 11% observed in gas/RLNG and furnace oil prices, respectively. Coal price on the other hand, decreased by 22% versus the SPLY, allowing the Business to restart its coal-based power plant to counter the impact of increasing RLNG & furnace oil prices. Consequently, energy cost rose by 14% against the SPLY.

Towards the end of the period under review, the effect of the COVID-19 pandemic became certain on domestic textile industry as export orders were cancelled and the Government of Pakistan enforced stringent lockdown measures which forced the industry to shut operations, which also included PSF manufacturing, operations of which have been shut since the last week of March. Additionally, the price differential between imported and domestic PSF widened towards the end of the quarter. It is expected that once operations of downstream textiles are resumed, the PSF manufacturing will restart operations as it is an integral part of the textile supply chain.

Consequently, the Business sold 28,213 MT of PSF during the quarter, being 11.7% lower than the SPLY whereas on nine-month basis, volumes remained lower by 1.7% versus the SPLY. However, despite lower volumes, the Business was able to achieve improved operating result by PKR 736 million (2083%) as compared to the SPLY due to healthy margins and various cost optimization initiatives experienced in the earlier parts of the period under review.

Going forward, the petrochemical & cotton markets will remain under pressure, as countries continue to place unprecedented measures to control the outbreak.

Soda Ash Business

The domestic market of soda ash mirrored the overall economic situation of the country and remained at par with the last financial year. The business has witnessed challenges as the downstream segments had been impacted with steep exchange rate devaluation and Government's efforts to document the economy, both of which negatively impacted market activities. The effect of the pandemic towards the end of the period under review, increased the pressures on global and domestic markets.

The worst hit segment was Bazaar where the traders were forced to limit transactions in a bid to streamline their processes as per Government requirements. The Paper segment was also severely impacted due to a delay and lower offtake by textbook boards and consequently, with a few units shutting operations. The Silicate segment was impacted negatively due to the closure of several units and lower demand of laundry soap. The soda ash demand was largely supported by the Glass and Detergent segments.

The Glass segment witnessed expansion in installed capacity, with the detergent segment posting growth with the preference for laundry powder over soap as the medium for washing. The downstream demand of float glass continued to remain weak due to sluggish construction activities. The RSB market witnessed growth over the SPLY as growing urbanization is fuelling demand for poultry and confectionary items, both of which require RSB.

Despite these challenges, the operating result for the nine months ended March 31, 2020 at PKR 3,066 million is 14% higher than the SPLY, mainly due to improved margins on account of energy cost and fixed cost optimization through effective plant operations.

The Business has successfully developed diversified export markets, establishing a foothold in multiple markets in South Asia, Middle East and Africa with regular exports. The benefit of declining market share of China in these markets has been leveraged by the Business to fill the supply gap.

Following the outbreak of COVID-19 and its declaration as a pandemic, the global economy is poised towards a recession. Governments all over the world have announced stimulus packages to support their economies. Global trade is expected to record a significant drop due to global lock down measures and consequential economic slowdown. As a result, exports in the last quarter of the financial year are expected to decline.

On the domestic front, the package announced for the construction segment is expected to positively impact demand for float glass which will improve demand for soda ash. Likewise, the focus on hygiene during the outbreak will help improve the sales of detergent and soap which is expected to result in improved sales to detergent and silicate segments. However, sales to paper segment are expected to remain slow due to extended closure of educational institutes. Likewise, extended lockdown will also impact the sales to Bazaar segment. The sale of RSB is expected to proceed normally.

Pharmaceuticals

During the nine-month period under review, the Pharmaceutical Industry faced several challenges, including temporary trade suspension with India, tax and transaction documentation reforms by the Government and most recently, the outbreak of COVID-19. The trade ban on Indian imports resulted in shortage of active pharmaceuticals ingredients and consequently lost sales for the Business. The tax and transaction documentation reforms led to a significant slowdown in the wholesale segment and thus decelerated the overall sales momentum.

The spread of COVID-19 at the end of the period under review led to a nation-wide lockdown and closure of almost all OPD's of the major hospitals, which negatively impacted prescription generation and consequently resulted in lost sales.

Despite these challenges, the Business delivered net sales of PKR 4,570 million, 4% lower than the SPLY. Operating profit for the period under review was PKR 370 million, which is an improvement of 108% against the SPLY. This performance was largely driven due to better sales mix, improved manufacturing efficiencies and cost management.

Cirin Pharmaceuticals (Private) Limited has been successfully amalgamated into ICI Pakistan effective March 1st, 2020. The merger process, which entailed complex regulatory approvals and HR integration, was completed in record time without any business interruption. This will be instrumental in further strengthening the Pharmaceuticals business to deliver long term sustainable, competitive and profitable growth.

The economy of Pakistan is expected to further slowdown in the last quarter of the Financial Year 2019-20 owing to macroeconomic interventions coupled with the impact of COVID-19 pandemic. Moreover, significant rupee devaluation in the last part of the period under review, will make imports of raw materials costlier. This, together with the shortage of APIs due to COVID-19 related lockdown in India and China, would negatively impact the Business' operating profitability and could also potentially result in shortage of essential medicines in the local market.

Facing an uncertain economic and regulatory environment along with unprecedented challenge of COVID-19, the Business is putting its entire focus on improving manufacturing efficiencies, cash flow optimization and cost control.

Animal Health Business

During the period under review, the Business delivered net turnover of PKR 2,922 million, 2% higher than the SPLY whereas reporting an operating result of PKR 157 million being 21% lower than the SPLY. Business performance was affected mainly due to stressed market conditions in the poultry segment, which was slightly offset by encouraging growth in the livestock segment.

During the period under review, poultry sector faced difficult market conditions, owing to over-supply of day-old chicks and marketable chicken prices. Higher feed prices also contributed to the declining margins for poultry farmers. The situation is expected to persist in upcoming months, as breeder companies did adjust production of chicks. Huge financial losses to the farmers resulted in liquidity crises which negatively impacted the payments cycle. Accordingly, corrective measures were taken during the period to manage the credit exposure, which resulted in resistance from the customers leading to lower sales.

To further strengthen its to longer term viability, the Business remained focussed on its locally manufactured portfolio. Locally produced MSD anthelmintic, Farmer's Choice range of products, Vanda and Silage portfolios remained on track, improving the locally manufactured mix of the Business.

With the spread of COVID-19, the Government as part of the nation-wide lockdown, banned public gatherings and events resulting in a steep decline in the demand for milk and poultry products. Consequently, creating additional pressures on the business and negatively impacting the sales.

The situation is expected to prevail during the last quarter of the financial year and the business while closely monitoring the situation, is all geared up towards maximizing the results in this uncertain situation.

Chemicals & Agri Sciences Business

The Chemicals & Agri Sciences Business achieved a net turnover of PKR 6,356 million for the period under review, which is 9% higher than the SPLY. The operating result of the Business for the period under review was recorded at PKR 655 million which is 39% higher than the SPLY. Despite the challenging situation, the business was able to manage the profitability well, through enhanced focus on margin optimization and operational excellence.

The Agri Sciences Business was impacted by ban on imports from India which was mitigated by strong performance in oil seeds category and improved margin management. The Chemicals Business improved results were mainly driven through acquisition of customers and cost optimisation.

The newly commissioned Masterbatches business was supported by new customer acquisition, successful repeat orders and new technical developments which helped built a positive momentum during the period. In line with our strategic aspirations, the business continued R&D in specialized end use segments.

The outbreak of COVID-19 and related lockdown measures have impacted all the sectors including but not limited to agriculture, manufacturing, trade, public services, hotels and restaurants, light/heavy manufacturing etc. This is expected to continue during the last quarter of the financial year which may result in overall sales decline for the business.

The Business is, however, committed to cope up with these challenges through operational excellence and cost management whilst remaining focussed on robust Business results.

Future Outlook

As the world grapples with COVID-19, the economic challenges are escalating and posing a bigger threat to the global economy since the 2008 Financial Crisis. The unprecedented outbreak has resulted in severe uncertainty and the full impact of the pandemic on the domestic and global economy are yet unknown.

With the spread of COVID-19 in Pakistan, the country has declared a health emergency with an unprecedented nation-wide lockdown which put a partial halt to the economic activities, resulting in extremely difficult macro-economic challenges. However, the measures taken by the Government such as reduction of policy rate and special focus on the construction industry, are expected to help mitigate some of the economic effects of the pandemic as the authorities work towards containing the spread of the virus.

The Company, however, remains focused on minimizing to the extent possible the impact of COVID-19 and its concomitant negative effect on its performance. Although the Company is supported by its diversified portfolio which includes essential products and raw materials, however, given the uncertainty surrounding COVID-19 globally and domestically, the Company remains cautious on its future performance.

زیرجائزہ مدت عالمی جیو پولیٹکل واقعات کے ساتھ ساتھ عالیہ جاری COVID سے بھی متاثر رہی۔ دنیا کی دوسب سے بڑی معیشتوں امریکہ اور چین کے درمیان تجارتی جنوری 2020 میں امریکہ اور چین کے درمیان تجارتی معاہدے کے پہلے مرحلے پر دستخط ہوئے جس کا اثر بہت کم عرصد رہا کیونکہ عالمی وبانے پوری دنیا کوغیر معمولی طور پر اپنی لپیٹ میں لے لیا۔ اگر چہتیل کی صنعت غیر بھینی عالات سے نمٹنے کی کوششیں کر رہی تھی ، سعودی عرب اور روس کی جانب سے خام تیل کی پیدا وار میں کمی نہ کرنے کی وجہ سے پیڑ و کیمیل چین بُری طرح متاثر ہوئی جب کہ مارچ کے آخر میں خام تیل کی قیمتیں 18 سال کی کم ترین سطح (USD 30.7/bbl) پر آگئیں۔

اوسط کی بنیاد پردیکھاجائے تو خام تیل کی قیمتیں گزشتہ سال (USD 53.3/bbl vs USD 61.0/bbl) کے مقابلے میں %12.7 کم ہوئیں۔PTA، PX اور MEG مارکیٹس میں فیڈاسٹاک کی قیمتوں میں کمی ،نئی گنجائش کے اضافے اور انونٹریز کی تیاری دیکھی گئی۔ گزشتہ سال کی اسی مدت (SPLY) کے مقابلے میں PX کی قیمت MEG کی سال کی مدت (USD 632/MT vs USD 903/MT) اور MEG کی سال MEG کی سال ک

زیرجائزہ مدت کے آخر میں COVID-19 کی عالمی وبا کے اثر سے برآ مدات کے آرڈ رمنسوخ ہونے سے ملک کی ٹیکسٹائل کی صنعت پر گہرااثر پڑا۔ حکومت پاکستان نے سخت لاک ڈاؤن کے اقدامات اٹھائے جس سے صنعتوں کوزبرد تی اپنے آپریشنز بند کرنے پڑے جس میں PSF مینوفیکچرنگ بھی شامل ہے جس کے آپریشنز مارچ کے آخری ہفتے سے بند ہیں۔ اس کے علاوہ سے ماہی کے آخر میں درآ مدی مال اور ملکی PSF کی قیمتوں کا فرق اور بھی بڑھ گیا۔ توقع ہے کہ ایک مرتبہ پھرڈاؤن اسٹریم ٹیکسٹائلز کا آپریشن شروع ہونے سے کہ ایک مینوفیکچرنگ کے آپریشنز دوبارہ شروع ہوجائیں گے جو کہ ٹیکسٹائل کی سپلائی چین کا جزولا ینفک ہے۔

سوڈ اایش بزنس کی مقامی مارکیٹ ملک کی مجموعی معاشی صورتحال کاعکس تھی اور گزشته مالی سال کے مطابق رہی ۔ کاروبار کو کئی طرح کے جیلیجز کا سامنار ہااس لئے کہ ذیلی شعبہ جات پررو پے کی قدر میں کی اور حکومت کی معیشت کو دستاویزی شکل دینے کی کوشششوں ، نے منفی اثرات مرتب کئے ۔ زیر جائزہ مدت کے آخر میں وبا کے اثرات سے عالمی اور مقامی مارکیٹس پر مزید دباؤیڑا۔

سب سے زیادہ متاثر ہونے والا شعبہ بازار کا تھا جہاں تا جرحضرات حکومت کی شرائط کے مطابق اپنے کاروبار چلانے کیلئے محدود لین دین پرمجبور ہوگئے۔ کاغذ کا شعبہ بھی ٹیکسٹ بک بورڈ زکی جانب سے تاخیر کرنے اور عدم طلبی کے سبب بری طرح متاثر ہوااور بعض یونٹس نے آپریشن بند کردئیے۔ کئی یونٹس کے بند ہونے اور لانڈری سوپ کی طلب میں کمی کی وجہ سے سیلیکیٹ کے شعبہ پر بھی اثر پڑا۔ البتہ ہوڈ اایش کی طلب کو گلاس اورڈ ٹر جنٹ کے شعبہ کی جانب سے بڑی مدد ملی۔

گلاس کے شعبہ میں تنصیب کی گنجائش بڑھنے کاعمل دیکھنے میں آیا اور ڈٹر جنٹ کے شعبہ میں دھلائی کیلئے صابن کی بجائے لانڈری پاؤڈر کی ترجیح کی بناء پراضافہ ہوا۔ ذیلی شعبہ جات میں فلوٹ گلاس کی طلب میں کمی رہی جس کی وج تعمیراتی سر گرمیوں کی سست روی تھی۔ ریفائنڈ سوڈ یم بائی کار بونیٹ (RSB) مارکیٹ میں گزشتہ سال کی اسی مدت (SPLY) کے مقابلے میں اضافہ دیکھا گیا کیونکہ شہروں میں پولٹری اور کنفکشنر کی کی اشیاء میں اضافہ ہوا اور ان دونوں میں ریفائنڈ سوڈ یم بائی کار بونیٹ (RSB) کی ضرورت ہوتی ہے۔

چیلنجز کے باوجود 31 مارچ 2020 کوختم ہونے والے نوماہ کیلئے آپریٹنگ نتائج 3,066 ملین پاکستانی روپے رہے جو گزشتہ سال کی اسی مدت (SPLY) کے مقابلے میں % 14 زیادہ بیں ،اس کابڑا سبب توانائی کی لاگت میں کمی کی وجہ ہے بہتر مارجن اور موثر پلانٹ آپریشن کے ذریعہ فکسٹرلا گت میں بہتری لانارہی ۔ کاروبار میں کامیا بی کے ساتھ متنوع برآمدی مارکیٹس کوڈیولپ کیا گیا اور جنو بی ایشیاء ،مشرق وسطی اور افریقہ میں مستقل برآمدات کے ساتھ کثیر تعداد میں مارکیٹس میں قدم جمائے ۔ چین کے مارکیٹ شیئر میں کی کافائدہ ان مارکیٹس میں فراہمی کے خلاء کو پر کرکے کاروبار میں اضافہ کی صورت میں ہوا۔

COVID-19 پھوٹ پڑنے اوراسے عالمی و ہا قر اردینے کے بعد عالمی معیشت میں کساد ہا زاری کی صورتحال پیدا ہونے لگی۔ دنیا بھرکی حکومتوں نے اپنی معیشتوں کومدد دینے کیلئے مختلف پیکیجز کا اعلان کردیا۔ دنیا بھر میں لاک ڈاؤن کے اقدامات اوراس کے نتیجے میں معیشت کی سست روی کے سبب عالمی تجارت میں نمایاں کمی متوقع ہے۔اس کے نتیجے میں مالیاتی سال کی آخری سے ماہی میں برآمدات میں بھی کی کی توقع ہے۔

مقای سطح پرتعمیراتی شعبہ کیلئے پیکیج کااعلان کیا گیاجس کافلوٹ گلاس کی طلب پرمثبت اثر پڑے گااور سوڈ الیش کی طلب میں بھی بہتری کاامکان ہے۔اسی طرح وبا کے پھیلاؤ کے دوران حفظان صحت پرتوجہ سے ڈٹر جنٹ اور سیلیکیٹ کے شعبہ جات کی سیز میں بہتری آنے کی توقع ہے۔ تا ہم تعلیمی اداروں کی بندش میں توسیع کے باعث کاغذ کے شعبہ کی سیز میں سست روی کی توقع ہے۔اسی طرح لاک ڈاؤن میں توسیع سے بازار کے شعبہ میں سیز پراثر پڑے گا۔ ریفائنڈ سوڈ یم بائی کار پونیٹ کی سیل معمول کے مطابق رہنے کی توقع ہے۔

زیر جائزہ نوماہ کی مدت کے دوران فارماسیوٹیکلز کی صنعت کو متعد دچیلنجز کا سامنا کرنا پڑا جس میں بھارت کے ساتھ عارضی تجارتی بندش ، حکومت کی جانب سے ٹیکس اور لین دین کے دستاویز بی شکل دینے کی اصلاحات اور 19-COVID کے بھیلاؤ کی تا زہ ترین صور تحال شامل ہے۔ بھارتی درآمدات کی بندش کے نتیجے میں ضروری فارماسیوٹیکلز کے اجزاء کی قلت اوراس کے باعث کاروبار میں سیلز کا نقصان ہوا۔ ٹیکس اور لین دین کو دستاویزی شکل دینے کی اصلاحات سے تھوک کے شعبہ میں سست روی آئی اوراس طرح مجموعی طور پرسیز کی رفتار بھی کم ہوگئی۔

زیرجائزہ مدت کے آخر میں COVID-19 کے پھیلاؤ سے ملک بھر میں لاک ڈاؤن کیا گیااور تقریباً بڑے ہسپتالوں کی تمام اوپی ڈیز بند ہوگئیں جس کامنفی اثر نسخوں کے اجراء پر پڑااورراس کے نتیج میں سیلز کا نقصال ہوئی جو گزشتہ سال کی اسی مدت اجراء پر پڑااورراس کے نتیج میں سیلز کا نقصال ہوئی جو گزشتہ سال کی اسی مدت (SPLY) کے مقابلے میں (SPLY) کے مقابلے میں (SPLY) کے مقابلے میں 108% دیادہ ہے۔ یہ کارکردگی بہتر سیاز مکس ، بہتر مینوٹیکچرنگ استعداد اور لاگت کی منتجہ نے کے سبب ممکن ہوئی۔

کیم مارچ2020 کوسیرین فارماسیوٹیکلز (پرائیویٹ) کمیٹڈ کامیابی کےساتھ آئی سی آئی پا کستان کمیٹڈ میں ضم ہوگئی۔اس انضام کے ممل کے بعد متعد دریگولیٹری منظوریاں اورا پچ آرکے استحکام کاعمل بغیر کاروباری دخل اندازی کے ریکارڈ وقت میں مکمل کیا گیا۔ بیانضام فارماسیوٹیکلز کاروبار کوطویل المدت مستحکم حیثیت دینے اور مسابقت اور منافع بخش ترقی کیلئے مزید تقویت دینے کاذریعہ ثابت ہوگا۔

مالیاتی سال20-2019 کی آخری سے ماہی میں پاکستان کی معیشت کے مزید ست ہونے کی توقع جس کی وجہ میکروا کنا مک عوامل کی دخل اندازی کے ساتھ ساتھ اسلامی دول کی تاریخ کے ساتھ ساتھ ساتھ کے داس کی عالمی ویا کے اثرات بلیں۔ مزید برآن زیر جائزہ مدت کے آخری حصہ میں روپے کی قدر میں نمایاں کمی زیادہ مہیں گے خام مال کی درآمد کا سبب ہوگی۔ اس کے ساتھ COVID-19 سے متعلق بھارت اور چین میں لاک ڈاؤن کے سبب APIs کی قلت کا کاروباری عمل کی منفعت پر منفی اثر پڑے گانیز مقامی مارکیٹ میں ضروری ادوبات کی قلت کی قلت کی قلت کی قلت کی قلت کی قلت کی میں میں ہوسکتی ہے۔

غیریقینی معاشی ریگولیٹری صورتحال کی بدولت اور COVID-19 کے غیر معمولی چیلنج میں کاروبار کی پوری توجہ مینونیکچرنگ کی استعداد، کیش فلو کے انتظامات اور لاگت کے کنٹرول پرمرکوز ہے۔

	آپریٹنگ کے نتائج (پا کستانی ملین روپے)	خالص آمدنی (پاکستانی ملین روپے)	
199	مارچ 2019	2,875	مارچ 19(
157	مارچ 2020	2,922	مارچ 20(

زیر جائزہ مدت کے دوران کاروبار میں 2,922 ملین پاکستانی روپے کامنافع ہوا جوگزشتہ سال کی اسی مدت (SPLY) کے مقابلے میں 2% زیادہ ہے جب کہ آپریٹنگ نتائج 157 ملین روپے رپورٹ ہوئے جوگزشتہ سال کی اسی مدت (SPLY) کے مقابلے میں 21% کم ہیں۔ پولٹری کے شعبہ میں کاروبار کی کارکردگی پر مارکیٹ کی دباؤکی صورتحال کا بڑا اثر پڑا جس میں لائیواسٹاک کے شعبہ میں حوصلہ افزاءاضافے سے معمولی سی بہتری آئی۔

زیرجائزہ مدت کے دوران پولٹری کے شعبہ کو مارکیٹ کے مشکل حالات کا سامنار پاجس کی اہم وجہ ایک دن کے چوزوں کی ضرورت سے زیادہ سپلائی اور مرغی کی قیمتیں تھیں۔ فیڈک زیادہ قیمتوں سے بھی پولٹری فار مرز کیلئے مارجن میں کمی پیدا ہموئی۔ یہ صورتحال اسلام چند ماہ تک جاری رہنے کی توقع ہے کیونکہ بریڈرز کمپنیوں نے چوزوں کی پروڈ کشن ایڈ جسٹ کی ہے۔ فارم کو بھاری مالی نقصان بینچنے کے باعث لیکویڈیٹی کا بحران پیدا ہواجس نے ادائیگی کی گردش پرمنفی اثر ات مرتب کئے۔اس لحاظ سے مذکورہ مدت میں کریڈٹ کے ایکسپوژر کا بندوبست کرنے کیلئے درشگی کے اقدامات اٹھائے گئے جس کے نتیج میں صارفین کی طرف سے مزاحمت کا سامنا ہوا اور سیلز میں کی آئی۔

کاروبار کے طویل عرصے تک پھلنے پھولنے کی صلاحیت کومزید تقویت دینے کیلئے اس کے مقامی طور پر تیار کردہ پورٹ فولیو پر توجہ مرکوزرکھی گئی۔ مقامی طور پر تیار کردہ کاروباری مکس پروڈ کٹس وانڈ ااور سائلیج پورٹ فولیو درست طور پر قائم رہے اور مقامی طور پر تیار کردہ کاروباری مکس پروڈ کٹس میں بہتری لائی گئی۔

COVID-19 کے پھیلاؤ سے حکومت نے ملک بھر کے لاک ڈاؤن کے سلسلے میں عوامی اجتماع اور تقریبات پر پابندی لگادی جس کے باعث دودھاور پولٹری کی پروڈکٹس کی طلب میں تیزی سے کی آئی۔اس کے نتیجے میں کاروبار پراضافی دباؤ پڑا اور سیلز پرمنفی اثرات مرتب ہوئے۔اس صور تحال کا مالیاتی سال کی آخری سے ماہی تک برقر ارر ہنے کی توقع ہے جبکہ صور تحال کی سخت نگرانی کے ساتھ کاروبار کواس غیریقینی صور تحال میں بہتر سے بہتر نتائج کے حصول کیلئے تیاری کی گئی ہے۔

زیرجائزہ مدت میں کیمیکلزاینڈا میگری سائنسز برنس نے 6,356 ملین پا کستانی روپے کی خالص آمدنی حاصل کی جوگزشتہ سال کی اسی مدت(SPLY) کے مقابلے میں %9 زیادہ ہے۔زیرجائزہ مدت میں آپریٹنگ نتائج 655 ملین پا کستانی روپے ریکارڈ ہوئے جوگزشتہ سال کی اسی مدت(SPLY) کے مقابلے میں %98 زیادہ ہے۔ چیلنجوالی صورتحال کے باوجود مارجن کوبہتر بنانے اور آپریشنل مہارت پرزیادہ تو جہ دے کرکاروبار میں منفعت کا بخوبی بندوبست کیا گیا۔

بھارت سےاشیاء کی درآمد پر پابندی سےا یگری سائنسز برنس پراثر پڑاجس کوآئل سٹرز کی کیٹھر پیرکار کردگی اور بہتر مارجن پنتمنٹ کے ذریعہ تم کیا گیا۔ کیمیکلز برنس میں صارفین کے حصول اور لاگت کوبہتر بنا کربہتر نتائج حاصل کئے گئے۔

نئے شروع کئے گئے ماسٹر پیچز کو نئے صارفین کے حصول، کامیابر پورٹ آرڈ رزاورنئ ٹیکنیکل ڈیولپمنٹ سے سہاراملاجس سے اس مدت کے دوران مثبت رفتار قائم کرنے میں مدد ملی۔این حکمت عملی کی امنگ کے مطابق ، کار وبار میں خصوص طوریرحتی استعمال کے شعبہ میں R&D کوجاری رکھا گیا۔

COVID-19 کے پھوٹ پڑنے اوراس سے متعلق لاک ڈاؤن کے اقدامات نے تمام شعبہ جات کومتا ٹر کیا ہے جن میں زراعت ،مینوفیکچرنگ ،تجارت ، پبلک سروسز، ہوٹلز اورریسٹورنٹس ،ملکی/بھاری مینوفیکچرنگ وغیرہ شامل ہیں۔اس کے مالیاتی سال کی آخری سہ ماہی تک جاری رہنے کی توقع ہے جس کے نتیجے میں کاروبار کی مجموعی سیلز میں کی ہوگی۔تا ہم کاروبار کوان چیلنجز سے نمٹنے کیلئے آپریشن میں مہارت اور لاگت کی مینتمنٹ سے کام لینا ہوگا جب کہ کاروبار کے نتائج پر بھر پور تو جہ مرکوزرکھنی ہوگی۔

مستقبل کے امکانات

COVID-19 سے نبر دآ زماد نیامیں معاشی چیلنجز میں اضافہ ہور ہا ہے اور 2008 کے مالیاتی بحران کے مقابلے میں عالمی معیشت مزید بڑے خطرے سے دو چارہے۔غیر معمولی طور پر پھوٹنے والی بیاری نے سخت بے یقینیوں کوجنم دیا ہے اوراس عالمی وبا کامقامی اور عالمی معیشت پر کتنا گہراا شرمر تب ہوگا، ابھی کچھنہیں کہا جاسکتا۔

پاکستان میں COVID-19 کے بھیلاؤ سے ملک میں صحت کی ہنگا می صورتحال کااعلان کر دیا گیا ہے اور ملک بھر میں غیر معمولی لاک ڈاؤن نے معاشی سر گرمیوں کو جزوی طور پر معطل کر دیا ہے جس کے نتیجے میں انتہائی مشکل میکروا کنا مک چیلنجز در پیش میں۔ تاہم حکومت کی جانب سے کئے گئے اقدامات جیسے پالیسی ریٹ میں کمی اورتعمیراتی صنعت پر خصوصی تو جہ کے باعث توقع کی جاتی ہے کہ وبا کے بعض معاشی اثرات کوختم کرنے میں مدد ملے گی کیونکہ اتھار ٹیز وائرس کے بھیلاؤ پر قابو پانے کیلئے سر گرم عمل ہیں۔

تاہم کمپنی نے اپنی توجہ COVID-19 کے اثرات اوراس کے ساتھ ساتھ کار کردگی پراس کے منفی اثرات کوممکنہ حدتک کم سے کم کرنے پر مر کوزر کھی ہے۔ اگر چپکپنی کومتنوع پورٹ فولیو کی سپورٹ حاصل ہےجس میں لازمی پروڈ کٹس اور خام مال شامل ہے، تاہم مقامی اور عالمی سطح پر ہر طرف COVID-19 کی غیریقینی کیفیت کے باعث کمپنی کو مستقبل کی کار کردگی کے بارے میں مختاط رہنا ہوگا۔

ICI Pakistan Limited Notes to the Condensed Interim Unconsolidated Financial Statements For the Nine Months Ended March 31, 2020

Amounts in PKR '000

1 Status and nature of business

ICI Pakistan Limited ("the Company") is incorporated in Pakistan and is listed on the Pakistan Stock Exchange Limited. The Company is engaged in the manufacturing of polyester staple fibre, POY chips, soda ash, specialty chemicals, sodium bicarbonate, polyurethanes and pharmaceutical products; marketing of seeds, toll manufactured and imported pharmaceuticals and animal health products; and merchanting of general chemicals and manufacturing of masterbatches. It also acts as an indenting agent and toll manufacturer. The Company's registered office is situated at 5 West Wharf, Karachi.

The Board of Directors (the Board) of the Company in a meeting held on 07 December 2019 considered and approved in principle amalgamation of the Company and its wholly owned subsidiary Cirin Pharmaceuticals Private Limited ("Cirin") in accordance with terms of a scheme of arrangement prepared under the provisions of Section 284 of the Companies Act 2017. Hence, effective 01 March 2020, Cirin has ceased to exist as legal entity.

Pursuant to this, the entire business of Cirin including its properties, assets, liabilities and rights and obligations vested into the Company. The legal amalgamation has been accounted for in these financial statements using 'Liquidation from Consolidated Financial Statements 'approach since the investment in Cirin was recorded at cost. The acquired assets and assumed liabilities including goodwill and brands have been recognized at the carrying amounts as reflected in the consolidated financial statements as at 01 March 2020. The difference between the amounts assigned to the assets and liabilities in the Company's separate financial statements after the legal amalgamation, and the carrying amount of the investment in Cirin before the legal amalgamation, has been recognized in statement of profit or loss. Further, the financial position and results of operations of the amalgamated subsidiary are reflected in these financial statements only from the date on which the amalgamation occurred. Consequently, the corresponding amounts for the previous year presented are also not restated.

These are the separate condensed interim unconsolidated financial statements of the Company in which investment in subsidiaries and associate is stated at cost less impairment losses, if any.

2 Statement of compliance

- 2.1 These condensed interim unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:
 - International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by International Accounting Standard Board (IASB) as notified under the Companies Act, 2017;
 - Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under Companies Act, 2017; and
 - Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

3 Significant accounting policies

The accounting policies and methods of computation adopted for the preparation of these condensed interim unconsolidated financial statements are the same as those applied in the preparation of the the annual unconsolidated audited financial statements as at and for the year ended June 30, 2019, except for the adoption of the following new and amended standards, interpretations and improvements to IFRSs by the Company, which became effective for the current period:

- IFRS 16 Leases
- IAS 19 Plan Amendment, Curtailment or Settlement (Amendments)
- IAS 28 Long-term Interests in Associates and Joint Ventures (Amendments)
- IFRIC 23 Uncertainty over Income Tax Treatments

The adoption of above standards, interpretations and improvement to standards did not have any material effect on the condensed interim unconsolidated financial statements of the Company, except for the changes related to adoption of IFRS 16 'Leases' as explained below.

IFRS 16 - Leases

IFRS 16 supersedes IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC-15 'Operating Leases-Incentives' and SIC-27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Whereas, for lessees all leases will be classified as finance leases only. However, as per relevant guidelines issued by Institute of Chartered Accountants of Pakistan, contracts under liarah will continue to be treated as operating leases under IFAS 2.

The Company adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of July 01, 2019. Under this method, the standard is applied retrospectively with cumulative effect of initially applying standard recognised at the date of initial application and accordingly the Company is not required to restate prior year results.

The Company assessed its existing contracts and concluded that right-of-use assets as disclosed in note 6 to these condensed interim unconsolidated financial statements shall be recognised along with their corresponding lease liabilities. For other existing contracts, the Company elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short-term leases'), and lease contracts for which the underlying asset is of low value ('low-value assets').

The right-of-use assets were recognised based on the amount equal to their corresponding lease liabilities, adjusted for related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. The Company did not have any sub-lease or finance lease as on July 01, 2019.

Accordingly, initial application of IFRS 16 did not have any impact on the opening retained earnings as of July 01, 2019 and on these condensed interim financial statements, except for the recognition of right-of-use assets and corresponding lease liabilities as disclosed in note 3.2 to these condensed interim unconsolidated financial statements. The effect of adoption of IFRS 16 on the statement of profit or loss includes an increase in depreciation expense by PKR 30.529 million, increase in interest expense by PKR 15.244 million and decrease in lease rental by PKR 47.305 million. Further, impact on statement of cash flows includes an increase in net cash flows from operating activities by PKR 43.503 million and an decrease in net cash flows from financing activities by the same amount.

Amounts in PKR '000

The lease liabilities as at July 01, 2019 can be reconciled to the operating lease commitments as of June 30, 2019 as follows:

3.1 Summary of new accounting policies

Set out below are the new accounting policies of the Group upon adoption of IFRS 16, which have been applied from the date of initial application:

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred (if any), and lease payments made at or before the commencement date less lease incentives received (if any). Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases

The Company applies the short-term lease recognition exemption to its short-term leases of warehouses and houses (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

3.2 Amounts recognised in the statement of financial position and profit or loss

20 Estimates

The preparation of these condensed interim unconsolidated financial statements, in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. Actual results may differ from the estimates. During the preparation of these condensed interim financial statement, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation and assumptions are consistent with those that were applied to the annual audited financial statements of the Company for the year ended June 30, 2019 except, as stated below and in note 3 of these condensed interim unconsolidated financial statements:

Significant judgement in determining the lease term of contracts with renewal options

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has the option, under some of its leases to lease the assets for additional for an additional periods. The Company applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

21 New amended and revised standards and interpretations of IFRSs

The accounting policies adopted in the preparation of these condensed interim unconsolidated financial statements are consistent with those of the previous financial year except for the adoption of IFRS 16 as disclosed in note 3 to the accompanying condensed interim unconsolidated financial statements.

22 Financial risk management

The Company's financial risk management objective and policies are consistent with that disclosed in the represented financial statements as at and for the year ended June 30, 2019.

ICI Pakistan Limited and its Subsidiary Companies Consolidated Financial Statements

Review of the Directors of the unaudited Group results of ICI Pakistan Limited for the Nine Months Ended March 31, 2020

The Directors are pleased to present their review together with the unaudited Group results of ICI Pakistan Limited for the nine-month ended March 31, 2020. The ICI Pakistan Group comprises ICI Pakistan Limited, and its subsidiaries of ICI Pakistan PowerGen Limited (PowerGen) and NutriCo Morinaga (Private) Limited (NutriCo Morinaga).

The Directors report, which provides a commentary on the performance of ICI Pakistan Limited for the nine months ended March 31, 2020, has been presented separately.

Net turnover of PowerGen for the nine-month ended stood at PKR 259 million, being 52% lower as compared to SPLY. Sale of electricity units to Polyester decreased by 67% versus SPLY, as the Business shifted to in-house coal-based energy source. Overall, operating profit fell by 72% against same period last year.

Cirin was successfully amalgamated into ICI Pakistan Limited effective from March 1, 2020 and the post amalgamation results have been presented in the Directors Report of ICI Pakistan Limited. During the pre-amalgamation period of eight months, Cirin achieved net sales of PKR 805 million, 12% higher as compared to the SPLY. The growth was achieved despite the temporary ban on imports from India, which led to a significant loss of sales of life-saving medicines during the period under review. Operating profit for the pre-amalgamation period was PKR 134 million, which shows an increase of 375% over the SPLY. The improved results were achieved mainly due to improved manufacturing efficiencies and strict controls on cost.

The construction of a state-of-the-art NutriCo Morinaga manufacturing facility was completed and the plant inaugurated in September 2019. Following the inauguration, commercial production commenced during the second quarter of the financial year 2019-20 with commercial release of products in January 2020. During the period, the Company made net sales of PKR 588 million with a gross profit of PKR 123 million. However, the gross profit translated into a Loss After Tax of PKR 136 million primarily due to high initial advertisement and administration expenses along with finance cost on the financing obtained for the project.

On a consolidated basis (including the results of the Company's subsidiaries: PowerGen, Cirin and NutriCo Morinaga), net turnover for the nine months period under review was PKR 44,546 million which was a 1% increase over SPLY. Whereas operating result at PKR 5,041 million was higher by 43% in comparison to the SPLY.

PAT for the nine months period under review at PKR 2,317 million is 31% higher than the SPLY whereas EPS attributable to the owners of the holding company at PKR 25.81 is 35% higher than the SPLY. Despite higher interest expense and significant exchanges losses during the period under review, the improved results were driven mainly by operational excellence across all businesses. The Company recognised PKR 343 million as share of profit from NutriCo Pakistan (Private) Limited.

ICI Pakistan Limited

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited) For the Nine Months Ended March 31, 2020

1 Status and nature of business

The Group consists of:

- ICI Pakistan Limited (the Holding Company);
- ICI Pakistan PowerGen Limited (PowerGen); and
- NutriCo Morinaga (Private) Limited (NutriCo Morinaga).

The Holding Company is incorporated in Pakistan and is listed on The Pakistan Stock Exchange Limited.

PowerGen is incorporated in Pakistan as an unlisted public company and is a wholly owned subsidiary company of ICI Pakistan Limited.

NutriCo Morinaga is incorporated in Pakistan as a private limited company. ICI Pakistan Limited has 51% ownership in NutriCo Morinaga.

The Holding Company is engaged in the manufacture of polyester staple fibre, POY chips, soda ash, specialty chemicals, sodium bicarbonate and polyurethanes; marketing of seeds, toll manufactured and imported pharmaceuticals and animal health products; and merchanting of general chemicals. It also acts as an indenting agent and toll manufacturer.

PowerGen is engaged in generating, selling and supplying electricity to the Company.

NutriCo Morinaga is engaged in manufacturing of infant milk powder.

The Holding Company's registered office is situated at 5 West Wharf, Karachi.

The Board of Directors (the Board) of the Company in a meeting held on 07 December 2019 considered and approved in principle amalgamation of the Holding Company and its wholly owned subsidiary Cirin Pharmaceuticals Private Limited ("Cirin") in accordance with terms of a scheme of arrangement prepared under the provisions of Section 284 of the Companies Act 2017. Hence, effective 01 March 2020, Cirin has ceased to exist as legal entity. Pursuant to this, the entire business of Cirin including its properties, assets, liabilities and rights and obligations vested into the Holding Company.

The condensed interim consolidated financial statements comprise the consolidated statement of financial position of ICI Pakistan Limited and its subsidiary companies, ICI Pakistan PowerGen Limited and NutriCo Morinaga (Private) Limited as at March 31, 2020 and the related consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows together with the notes forming part thereof.

2 Statement of compliance

- 2.1 These condensed interim consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:
 - International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by International Accounting Standard Board (IASB) as notified under the Companies Act, 2017;
 - Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under Companies Act, 2017; and
 - Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

3 Significant accounting policies

The accounting policies and methods of computation adopted for the preparation of these condensed interim consolidated financial statements are the same as those applied in the preparation of the the annual consolidated audited financial statements as at and for the year ended June 30, 2019, except for the adoption of the following new and amended standards, interpretations and improvements to IFRSs by the Group, which became effective for the current period:

IFRS 16 Leases

IAS 19 Plan Amendment, Curtailment or Settlement (Amendments)

IAS 28 Long-term Interests in Associates and Joint Ventures (Amendments)

IFRIC 23 Uncertainty over Income Tax Treatments

The adoption of above standards, interpretations and improvement to standards did not have any material effect on the condensed interim consolidated financial statements of the Group, except for the changes related to adoption of IFRS 16 'Leases' as explained below.

IFRS 16 - Leases

IFRS 16 supersedes IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC-15 'Operating Leases-Incentives' and SIC-27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Whereas, for lessees all leases will be classified as finance leases only. However, as per relevant guidelines issued by Institute of Chartered Accountants of Pakistan, contracts under Ijarah leases continue to be accounted for as operating leases under IFAS 2.

The Group adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of July 01, 2019. Under this method, the standard is applied retrospectively with cumulative effect of initially applying standard recognised at the date of initial application and accordingly the Group is not required to restate prior year results.

The Group assessed its existing contracts and concluded that right-of-use assets as disclosed in note 6 to these condensed interim consolidated financial statements shall be recognised along with their corresponding lease liabilities. For other existing contracts, the Group elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short-term leases'), and lease contracts for which the underlying asset is of low value ('low-value assets').

The right-of-use assets were recognised based on the amount equal to their corresponding lease liabilities, adjusted for related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. The Group did not have any sub-lease or finance lease as on July 01, 2019.

Accordingly, initial application of IFRS 16 did not have any impact on the opening retained earnings as of July 01, 2019 and on these condensed interim consolidated financial statements, except for the recognition of right-of-use assets and corresponding lease liabilities as disclosed in note 3.2 to these condensed interim consolidated financial statements. The effect of adoption of IFRS 16 on the statement of profit or loss includes an increase in depreciation expense by PKR 30.529 million, increase in interest expense by PKR 15.244 million and decrease in lease rental by PKR 47.305 million. Further, impact on statement of cash flows includes an increase in net cash flows from operating activities by PKR 43.503 million and an decrease in net cash flows from financing activities by the same amount.

The lease liabilities as at July 01, 2019 can be reconciled to the operating lease commitments as of June 30, 2019 as follows:

Operating lease commitments as at June 30, 2019

Weighted average incremental borrowing rate as at July 01,
Discounted operating lease commitments as at July 01, 2019

Less:

| Jarah and others | (213,091)
| Lease liabilities as at July 01, 2019 | 163,376

Amounts in PKR '000

3.1 Summary of new accounting policies

Set out below are the new accounting policies of the Group upon adoption of IFRS 16, which have been applied from the date of initial application:

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred (if any), and lease payments made at or before the commencement date less lease incentives received (if any). Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases

The Group applies the short-term lease recognition exemption to its short-term leases of warehouses and houses (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

20 Estimates

The preparation of these condensed interim consolidated financial statements, in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. Actual results may differ from the estimates. During the preparation of these condensed interim financial statement, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation and assumptions are consistent with those that were applied to the annual audited financial statements of the Group for the year ended June 30, 2019 except, as stated below and in note 3 of these condensed interim consolidated financial statements:

Significant judgement in determining the lease term of contracts with renewal options

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its leases to lease the assets for additional for an additional periods. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

21 New, amended and revised standards and interpretations of IFRS's

The accounting policies adopted in the preparation of these condensed interim consolidated financial statements are consistent with those of the previous financial year except for the adoption of IFRS 16 as disclosed in note 3 to the accompanying condensed interim consolidated financial statements.

22 Financial risk management

The Group's financial risk management objective and policies are consistent with that disclosed in the financial statements as at and for the year ended June 30, 2019.

23 Date of authorisation

The condensed interim consolidated financial information was authorised for issue in the Board of Directors meeting held on April 20, 2020.

24 General
